ℹ I authorize the processing of personal data pursuant to Legislative Decree 196 of 30/06/2003, and Article 13 of the GDPR.

I have a Master's Degree in Computer Science at the University of Turin, specialization in "Artificial Intelligence and Information Systems". The main courses attended are: Machine Learning, Deep Learning, Natural Language Technologies, Bio Informatics and Advanced Software Technologies and Architectures. Through work activities and personal projects I have acquired experience in software programming with respect to various languages and frameworks.

🎓 FORMAZIONE

2022 **Master's Degree in Computer Science**, at the University of Turin, Department of Computer Science, specialization in "Artificial Intelligence and Information Systems". *Degree Grade: 110 cum laude.*

2020 **Degree in Computer Science**, at the University of Turin, Department of Computer Science. *Degree Grade: 110.*

2017 **High School Diploma**, at the I.I.S. G. Vallauri of Fossano, Technological Sector address "Information and Telecommunication". *Final Grade: 79.*

💼 WORK EXPERIENCE

Now
January 2024

CTO and Founder, LUMEN LABS - TALKKIT, TURIN, IT
> Founder and CTO of a startup in the Ed-Tech sector. Our product, Talkkit, is a language-learning application that enables users to converse with a virtual avatar. As the CTO and the only founder with technical expertise, I have independently developed all aspects of the product: from research and design to development and deployment in cloud environments.

Flutter | FastAPI | Unity | Azure

Now
April 2023

Full Stack Developer, DOINN SRL, MONDOVÌ CN, IT
> Data collection, analysis, design, development, testing, and deployment of web-based software solutions created on-demand for clients, including Banco Azzaglio SpA. Participated in all stages of the development lifecycle, both as a sole developer and as part of a team.
Worked on 4 projects:
1. A Sound Therapy platform with an integrated e-commerce and a custom CMS. Stack: React, Laravel, and FastAPI.
2. A chatbot with Retrieval-Augmented Generation (RAG). Stack: ExtJS, FastAPI, and QDrant.
3. A platform for managing securitizations in the financial sector. Stack: ExtJS and Laravel.
4. A platform for managing hardware rental operations. Stack: React and Laravel.

ExtJS | Laravel | React | FastAPI | QDrant

March 2023
February 2023

Backend Developer, INTERVIEWEB SRL, TURIN, IT
> Designed and developed features for InRecruiting using a microservices architecture.

Docker | Microservices | NodeJS

January 2023
September 2022

Thesis Project - Data Scientist, ALTEN ITALIA S.P.A., TURIN, IT
> Study and analysis of Time Series data for Anomaly Detection.
> Application of Machine Learning methods.

Machine Learning | Deep Learning | Anomaly Detection | Time Series

September 2022 December 2019	**Full Stack Developer, SGUANG INFORMATICA SRL, SAN ROCCO CN, IT** › Web development of management software with functionalities and specifications provided by client companies using **Javascript** (Vue.js) for the front end and **Python** (Django) for the back end. Involved in all stages of design and development: from data collection to deployment on servers. These management systems generally revolved around customer management, appointments, sales orders, quotes, rentals, interventions, or maintenance. › Web hosting, domain, and VPS management using services like Aruba, Register, and Netsons. › Web development of small applications with PHP. › Website development using Wordpress. Vue | Django | Wordpress | XAMPP
August 2018 February 2018	**Junior Developer, EOS SOLUTIONS S.P.A., SANT'ALBANO STURA CN, IT** Software development for the ERP Microsoft Dynamics® NAV: › Designed and developed software for interfacing with milk analysis machines, using Microsoft Dynamics NAV. Microsoft Dynamics NAV | Microsoft SQL Server
September 2017 August 2016	**Developer, WEB&TECH SOLUTIONS, CUNEO CN, IT** › Web development of management software with functionalities and specifications provided by clients using the PHP language. PHP | XAMPP

☰ SKILLS

Languages	Javascript, Python, Java, Kotlin, Dart, PHP, C#.
Frameworks	Flutter, Spring, Django, Vue, React, FastAPI, Laravel, ExtJS, Unity.
Mobile Development	Native (Java/Kotlin & XML/Compose) and Multi-platform (Flutter).
Database	MySQL, PostgreSQL, SQL Server, QDrant.
Development tools	Jetbains IDE, Code Editor, GIT, Jira, Docker, Heroku, CI.
Modelling	UML, ORM, BPMN.
AI	Data Analysis & Machine Learning Models

🗚 LANGUAGE

Italian	Native language.
English	Good listening, writing and comprehension skills. Discrete conversation skills.

⚙ SOFT SKILLS

Organizational skills	Ability to work in stressful situations, as public relations and deadlines of work activities.
Interpersonal Skills	Skills in managing group work and in achieving individual goals: › Willingness to face and compare new possibilities. › Good communication and interpersonal skills developed both in the school environment on the occasion of group projects, and at work. › Ability to independently manage one's own commitments with punctuality and precision.

💻 Personal Project

Talkkit   2024

Talkkit is a language learning application that allows you to converse with a virtual avatar. The mission is to offer an accessible, engaging and functional tool to become more fluent in foreign languages.

Booksriver   2022

Booksriver is a mobile application. It provides a large library of books in which the user can browse, indicate their progress in reading, write reviews and follow other users. The application has been developed in three variants: Native Android using Java and XML, Native Android using Kotlin and Compose, multi-platform using Flutter.
The backend was designed through a microservices architecture in Spring: two microservices along with EUREKA, a Gateway Service and RabbitMQ. For the deployment it has been used Docker-Compose and GitLab CI.
